ANDREAS IN RACE FOR ASSEMBLYMAN; SUPPORT ASSURED

Active Civic Worker and City Official to Have Name on August Ballot

TWO OTHERS SEEK POST

Prominent Resident Urged by Leaders to Become Candidate

Godfrey Andreas is today in the field for assemblyman from this district. He announced that he was preparing to have a petition circulated placing his name on the ballot at the August primaries, and if he is successful he will go to the assembly in Sacramento, succeeding Isaac Jones, who is not a candidate for re-election. Hobert Alter and Harold J. Caldwell, both from Ontario, are other candidates in the contest.

Mr. Andreas was approached by prominent Ontario citizens and representatives from the eastern end of the district concerning possibility of him becoming a candidate. Assured that he will be given strong backing by leaders in the district extending from the western county line to within the eastern limits of San Bernardino city, Mr. Andreas consented to seek the Sacramento position.

He is known throughout Upland for his active civic interests, for his service as a director of the San Antonio Water company, and for his position as city councilman. He is a member of the Elks lodge and is recognized as one of the most untiring workers when a civic project or improvement is at stake.

Mrs. Wilbur Dundas Painfully Injured When Hit on Head

An accident that could easily have had tragic results, occurred Sunday afternoon during the picnic held by the Methodist church choir in San Dimas park, when Mrs. W. M. Dundas was very painfully injured.

Mrs. Dundas was sitting beneath a tree some distance from where a group of men were playing baseball. A batter swung hard at the ball, but lost his grip on the bat and it hurled directly at Mrs. Dundas, one end of the big stick striking her on the side of her head with a resounding crash.

The bat slashed a gaping wound in her scalp and all but knocked her unconscious. The blood flowed freely and for a short time there was consternation among the erstwhile merry picnickers as they feared Mrs. Dundas was seriously injured. First aid treatment was given at a ranger station nearby and Mrs. Dundas was brought to a physician in Upland who dressed the wound.

A careful examination revealed nothing more serious than the scalp wound and today Mrs. Dundas is able to be up, although still suffering somewhat from the shock.

ALTA LOMA, June 14.—With outstanding Southern California physicians on the staff and with enough money raised to assure an early start in construction, final plans are being made today for the new $300,000 Upland Sanitarium building to be located in the foothills north of here.

The main portion of the building will be three stories in height and in the center of the structure a tower will rise six stories high.

The 72 patient rooms will be in the east and west wings of the first three floors with some de luxe suites in the tower. Each floor will have a diet kitchen, nurses duty niche, linen room and nurses utility room. The diet kitchens will be served by automatic electric dumb waiters direct from the main kitchen on the first floor.

The institution here is to be the center for patients of means who are seeking health and persons from all over the nation will be brought here to benefit by the climate, the facilities and the attention of the hospital experts. It is a matter of interest that weekly rates will range from $75 to $140 with an entrance fee of $50 being fixed.

On the board of directors are two men known in the community, Paul F. Schowalter and Dr. F. F. Abbott. On the advisory consulting staff of the institution will be Dr. Abbott and Dr. John B. Craig, besides many prominent Los Angeles physicians.

President of the Upland Sanitarium is H. E. Paul Paquin Leaves Nicaragua, Enroute to Pensacola Base

Stop Signs On Euclid Avenue At Foothill Blvd. Aid Traffic Check

Much improvement in the regulation of traffic at Euclid avenue and Foothill boulevard has been noted as the result of the "stop" signs serving to check the speeders and protect local motorists. Local officials today expressed themselves as highly pleased with the effect the signs have had.

It is known, however, that state highway department officials do not look with favor on the signs and a strong protest was given to the city council by the state concerning presence of the signs.

"I would hate to think what it would be like now without them," Chief of Police J. F. Sawyer said today.

Judge George R. Crane, who hears the views of those arrested for failing to stop, said that most of the excuses are, "I didn't see the sign;" I had never been on the road before and

I didn't know the sign was there," and similar complaints. A fine of $3 is levied by the judge if the motorist is guilty of failing to observe the sign.

Edward E. Gray, city attorney, looks upon the signs as a ing local motorists, who go up great step forward in protect- and down the avenue and in regulating the traffic as it goes through the city. When the signs were placed at the intersection, he predicted the state would object and he welcomed an investigation.

Seeking to give some protection to persons using the avenue and to prevent as many accidents as possible, the city council ordered the signs up several months ago. Placing of the signs there was looked upon as more or less of an experiment.

From the indications now, it is predicted by those in touch with the situation that the signs will always be in use. Before the signs were put up, several other methods, such as warning signs on the pavement and blinking lights along the right-of-way, were used. The "stop" signs, however, have brought better results, in the belief of many.

Foothill boulevard was recently widened and re-paved by the state and for the second time, shoulders of the right-of-way, along each side of the pavement, are being oiled.

FIRE PREVENTION CREW ON DUTY AND ASSISTANCE ASKED

Two Trucks and Two Men Will Patrol District in Battle Against Flames

FIRE PERMITS ISSUED

T. O. Herman Explains Need This Year for Caution and Cooperation

While the heavy rains during the season have greatly aided the Upland district, all that has been gained and much more can be lost within a short time if there is not the proper cooperation in fire prevention and in reporting fires, T. O. Herman, state fire warden for this district, said today in issuing an appeal for assistance.

Two trucks are available in fire fighting and two men will be on duty continuously, one patrolling and the other at the headquarters awaiting call. The two trucks are located north of Alta Loma near the northern end of Amethyst avenue.

"All fires outside the Upland city limits are to be reported to us there," Mr. Herman said. Telephone number at the fire headquarters is Upland 8727-R-4. "Need for cooperation and fire prevention is greater now than it has ever been. The heavy rains have caused a heavy undergrowth and fire will be more easily started and much harder to control."

No burning is to be done without a permit and Mr. Herman said that persons planning to burn brush should obtain a permit in advance. Getting a permit will also save time and expense in investigating. Wherever there is smoke, the officials investigate, unless they know that burning is to be done at a certain place at a certain time. With a permit granted for burning, the officials will expect to see smoke at the appointed place and will not uselessly investigate, he explained.

Assisting Mr. Herman is L. J. Rockwell. The two men will be on duty until the danger has passed.

Boys Go Pioneer; Roughing It With Burro and 2 Dogs

Craving a touch of pioneer life, two boys of Upland and Ontario have harked back to the covered wagon day and have taken to the open road.

With a burro, a personally assembled wagon boasting a real prairie schooner top, two dogs, a roll of bedding and some "eats," Robert Thompson, son of Dr. and Mrs. O. A. Thompson, and Louie Holbrook of Ontario, are roughing it along the Santa Ana river.

Leaving Upland several days ago they spent two days at the first water hole (Puddingstone dam) and then pushed on to the Santa Ana river, where they are camping.

Dr. and Mrs. Thompson have looked them up a time or two and grub staked them to a bit of chicken and cake, etc., but with these slight exceptions the boys have been on their own, caring for their own chuck wagon and cooking their meals over the camp fire.

The boys have so completely gone pioneer that, as they see it, their only lack is a good crop of whiskers.

The American Flag

June 14, Flag day, has ever carried the deepest meaning to every true American. This year the day carries a tenfold significance, as the nation celebrates the two hundredth anniversary of the birth of George Washington. For to General Washington, tradition credits a leading part in the very designing of the flag, and what he did to give it meaning is and will be known to every American as long as our country lives.

On June 14, 1777, Congress resolved: "That the flag of the thirteen United States be thirteen stripes, alternate red and white, that the Union be thirteen stars, white in a blue field, representing a new constellation."

In these simple words, authority was given to General Washington to design the flag, and on the same day tradition has it that he went to the house of Betsy Ross on that visit which has become one of the finest pages of American folk lore. With him, according to the account, went Robert Morris and George Ross, one of the signers of the Declaration of Independence and the uncle of Betsy Ross's deceased husband.

On entering her modest house in Arch street, Philadelphia, they are said to have found Mistress Ross busy at her needlework and humming a tune—softly, however, so that she might hear the tinkle of the bell on the door of her shop at the front of the house—and General Washington thus simply stated his errand:

"Mistress Ross, we have come to ask you to help in making a flag for our country. We do not feel pleased with the grand union flag because of the King's colors in the canton, so we have planned another."

The "grand union" flag referred to by Washington was the one he himself had designed and first flung to the breeze on Jan. 1, 1776, during his siege of Boston. This was at a time when the Revolutionists still felt they were fighting, not the British king, but his ministers; hence Washington's flag consisted of the thirteen alternate red and white stripes, but bore in its canton the king's crosses of St. George and St. Anthony. By 1777 the Revolutionists were fighting solely for an American nation, and they wanted an American flag.

Mrs. Ross, it is said, undertook the making of the flag eagerly, and with an exalted sense of the unusual honor conferred upon her. Not only that, she even suggested to Washington a slight correction in the design, which bore six-pointed stars instead of the five-pointed type of heraldry. With a snip of her scissors she cut a folded paper and held forth a perfect five-pointed star to show what she meant. For a few minutes longer the design was discussed, and as quickly as nimble fingers could execute the task, Mrs. Ross had the flag in being.

So, in this homely fashion which so well suits the American spirit, was born the emblem designed by Washington, coming almost like a direct gift from him, to fly ever since over the nation that he also designed. Today, every American is privileged to ponder on the stupendous human events and influences that have flowed from this simple incident at the house of Betsy Ross a century and a half ago.

When that flag was designed and made there was not a true republic in existence. Since then the principles set in motion by George Washington and his fellow patriots have extended themselves to the uttermost parts of the earth. More than an emblem of sovereignty, the flag that Washington planned has been a symbol of human freedom, of equal opportunity and political liberty wherever mankind has sought and fought for these things.

It drew the early patriots from comfortable homes, from the security of their occupations and from the love of their families, to fight for the larger world which we inherit. What to them was a far ideal is to us the great reality. No good American will neglect to ask himself how well he preserves the courage, the spirit of sacrifice belonging to those men and women who gave us this priceless heritage, on this returning anniversary of the day when their flag was born.

Hardly had the American flag appeared when it began to play an immortal part in our history. It first was flung in the face of the enemy less than two months after its creation, at Fort Stanwix, on Aug. 3, 1777. It was first carried into battle by George Washington's troops at the battle of the Brandywine, Sept. 11, 1777. It was first saluted by the British at the surrender of Burgoyne, Oct. 17, 1777. On Feb. 14, 1778, John Paul Jones took the first salute to the flag as a naval emblem when he sailed the "Ranger" into Quiberon bay, France. April 24, the same year, he forced the first striking of colors to the American flag by the British ship "Drake," in a British port. In 1787 the flag was first carried around the world by the ship "Columbia," sailing from Boston. It was first flown in battle in the Pacific by the U. S. Frigate "Essex" in 1813, and in the next year it inspired Francis Scott Key to "The Star Spangled Banner."

Once, in 1794, when Vermont and Kentucky joined the Union, the stars and stripes were increased to 15; but in 1818 Congress fixed the final form of the flag as of thirteen stripes, with a star to represent each state. April 6, 1909, Admiral Peary planted the first American flag at the North Pole. Since then Admiral Byrd has carried it to both poles. Wherever it has gone it has meant honor and achievement, but this year it floats in honor of the greatest of Americans and the greatest of achievements—George Washington, and his creation of the United States.

S. O. Circle Members Guests of Mrs. Cleo E. Moser—

One of the most enjoyable meetings of the year was held Thursday by the S. O. circle of the Mennonite church when approximately 60 members and guests gathered for a picnic at the home of a former member of the circle, Mrs. Cleo Moser, in Glendale.

It first had been planned to go to a park for the picnic, but Mrs. Moser invited her guests to remain at her home and the picnic dishes, which all had a share in providing, were served as a tray luncheon with beach tables being used.

Besides Mrs. Moser, there are a dozen or more former members of the circle living in Glendale and vicinity and they were invited as special guests.

Following the luncheon, a business meeting was conducted by the persident, Mrs. Harry Ledig, and plans were made for the summer.

It was decided to suspend the usual evening meetings during the summer, but in July and August day-time meetings will be held when the members will make surgical bandages and can ruit for the San Antonio Community hospital.

The remainder of the afternoon was spent socially and the merry hours were greatly enjoyed.

SANITARIUM MAN TALKS AT ROTARY

"Facing Future Unafraid," Subject; Charter Night To Be Observed June 28

Dr. Walter Thornton, secretary-treasurer of the Upland Sanitarium to be built in the foothills above Alta Loma, was the speaker at the meeting of the Upland Rotary club today noon. Dr. Thornton, who has the degree of doctor of philosophy and various other degrees, was formerly a minister at Fullerton and now conducts a radio hour. He gave as his subject "Facing the Future Unafraid," and emphasized his faith in the country emerging from the present crisis stronger and more prosperous than ever before. The speaker noted that the country has had many depressions and that each, as in this case, was preceded by a period of over inflation. Dr. Thornton's talk was wonderfully inspirational and he held the keen interest of his hearers.

An instance significant to this section was noted by the speaker as showing the lack of confidence at critical times. In 1865 the president sent a representative from Washington to this section to investigate conditions and he returned to the national capital with the recommendation that the United States give California back to Mexico because it was more than worthless. But faith has caused it to become what it is today.

Dr. Thornton gave assurances that the proposed Upland sanitarium will be built, also stating it will be specially for tuberculosis patients, there being a lack of hospitals in the country properly equipped for this purpose.

G. A. Hanson, president, presided at the meeting today and P. H. McQuillen, program chairman, announced that the annual charter night program will be held at the Woman's club house on Tuesday evening, June 28. The Rotary clubs of Ontario and Fontana and their ladies are invited to be present upon this occasion, when an excellent program and dinner will be provided.

Miss Uarda Hill, daughter of Mr. and Mrs. F. J. Hill, 428 Euclid avenue, is a member of the U. C. L. A. senior class that will graduate Friday from the university. Miss Hill has majored in English and will receive her A.B. degree.

GUASTI SCORES 13 RUNS IN VICTORY

Atwoods Weak in Opening Innings and Grape Men Hit Hard

Guasti made the most of its opportunity last night to pound Art Lichti, Atwood's relief pitcher, during the first two innings and when the fourth game in the Upland night league closed, the 1931 champions were trailing 13 to 6.

Jake Voth appeared on the mound late in the second frame with 8 scores already recorded. Another one came in and before the scoring fever was over the grape packers had counted 12 tallies by the fourth inning. After the terrible second inning, however, the teams were even in scoring with Atwood's sending in two runs each in the fifth and seventh innings. Guasti added one more to its total in the seventh.

Errors were nearly as plentiful as hits. Bill Dowding's three-base hit in the first inning and free passes given to Otto Lichti and Scott accounted for Atwood's two scores in the opening session.

Guasti also added a couple of runs with a walk for Maxwell, two-base hits by Curletti, and a single by Smith and an error.

What happened in the second inning could hardly be described as good ball playing on the part of Atwood's, the bunching of hits off of Lichti apparently being too much for his team mates' nerves. Seven runs by Guasti were made off of five hits, one of them a home run with one on by T. Martinez.

In the fifth, dependable Dowding and third-sacker Green for Atwoods hit to help balance the score. Thanks to "Squeak" Wilson's homer, with Dowding on, Atwood's added two more in the seventh. Guasti also added a marker in the seventh.

Dowding continued his 1000 per cent batting average up until the last out in the ninth when he failed to get to first. Always before he had either hit safely or had been walked. As the last man up in the game, Dowding connected, but not hard enough. A high fly was snared by Guasti's centerfielder to spoil the perfect record and to end the game.

Pitcher C. Martinez, Guasti, kept Atwoods pretty well controlled and the grape men made a very impressive bid for 1932 title honors. They can hit and it is their fashion to play "heads up" ball, fighting all the time.

Atwoods Get Early Lead to Win

By George Smallwood

Jumping into the lead in the first inning and holding it during the remainder of the game, Manager Glenn M. Atwood's team easily won their first game of the season, 11 to 5, from Manager Glenn Shepherd's Etiwanda squad Friday evening.

The Atwood team collected 12 hits, while their eastern rivals played errorless ball in the field. Atwood's offensive was led by Bill Dowding, center fielder, who earned a home run, a double and three singles in five times to bat. Burnie Green also figured heavily in the clothier's victory, getting a triple and a double.

Harold Zenz opened the ball game, being issued a free pass to first by Kemp. Green and Lichti followed with a pair of doubles, scoring two runs. The second stanza started with a pair of bases on balls to Gottwald and Voth. Zenz flied out to F. Johnston; Green then slammed a long drive which was good for three bases, scoring both Gottwald and Voth. Green soon scored also on a single by Dowding.

With this safe lead, the Atwood team coasted through the next seven innings, picking up a trio of runs in the sixth and another three in the ninth.

Kemp, Etiwanda twirler, appeared a bit wild during the game, issuing half a dozen walks, while Jake Voth pitched an unusually calm, walkless early season game. Both twirlers struck out nine men.

Scenic Highway For High Sierra

A scenic highway through the High Sierra mountains from north to south for a distance of 800 miles is the probability in the state for the enjoyment of motorists, according to a proposal by S. B. Show, regional forester for the state.

Much of this proposed highway already is constructed to major road standards and about one-third of it is composed of low standard national forest protection roads, which gradually will be improved as required.

Statistics of Night Ball Are Given

By George Smallwood

At the close of the first week of play in the Upland Night Ball league many interesting statistics are noticeable. In team batting Guasti has hit a fast clip of .359, while Etiwanda tops all teams in field play with a percentage of 1000. Individual batting honors are held by Bill Dowding.

Ernie Payne, Ontario A. A. A. first baseman, has outclassed all fielders by handling 13 chances errorlessly.

Extra base hit honors are shared by Manager-player Ted MacLaren, Lemon Grower second baseman; Curletti, Guasti third baseman, and Maxwell, Guasti left fielder—each hitting safely for two bases on two occasions. Five home runs and a trio of triples have also been recorded during the week.

This summary includes the games played last week and not the Guasti-Atwood melee last night. The figures reveal outstanding performance on the part of the leaders in each of the divisions and they will be watched with interest during the season.

Following is a complete fielding and batting record of all teams and the leading individuals with extra base hits; the individual batting and fielding records and a pitching record of all twirlers:

When the odds are against you. When you see no way to win your point—

"DON'T LET IT GO AT THAT."

Think hard— and if you don't see your way out of the wilderness, ask someone to advise you. Not Tom or Dick or Harry, but someone who makes it his mission to advise and help you. A MAN WHO KNOWS. Pay him for his time. Then you are under no obligation. And you need not worry about having your troubles publicly discussed or your confidence betrayed.

If interested in such subjects as changes, sales, love affairs, will, marriage, travel, divorce, friends, enemies, investments, property speculations, etc.—call on Mr. March, and if there is a way to help you he will probably see it and tell you about it in a clear and intelligent manner.

Woman's Club Entertained

A "post season" meeting, planned entirely as a social event and the final gathering of the club year, was held Friday by the Cucamonga Woman's club when more than 40 members and guests gathered at the home of Mrs. Wayne E. Morse on West Tenth street, Upland, and enjoyed her gracious hospitality during an all-day session.

Bouquets of flowers of various varieties, some from Mrs. Morse's own gardens and others the gifts of friends, lent color to the attractive rooms. The luncheon was served at quartet tables arranged in the dining room and on the spacious porch.

Mrs. E. S. Bishop, club president, conducted a brief business meeting especially to hear the club welfare chairman, Mrs. A. C. Beattie, make a report on community relief work. In view of the pressing need of a number of cases, the club voted to give $50 of its reserve fund to be used for welfare work during the summer under a special operative plan.

Arrangements for the annual family picnic to be held in the Ontario Fourth street park early in August were discussed.

The remainder of the afternoon was spent socially, pleasant conversation being enjoyed and much merriment was derived from a riddle contest introduced by Mrs. Bishop. The members took turn in propounding riddles, Mrs. A. C. Beattie's contribution being voted the best. She was presented by Mrs. Bishop with a "handsom cup" as a club trophy.

A pleasant feature of the meeting was the presence of Mrs. J. H. Williams of Long Beach, a former president of the club and now a non-resident member. Mrs. W. C. Belden and Mrs. M. H. Lewis were special guests of the club.

Miss Margaret Pyle, daughter of Mr. and Mrs. W. E. Pyle, has as her houseguest at her home on Esseline, Miss Dorothy Doak, Beta Phi Alpha sorority sister, who came up last Thursday from Los Angeles where she and Miss Pyle have been attending U. S. C.

Smith, former resident here, was recently elected president of the Pacific Electric Woman's club and her picture appears in the current issue of the Pacific Electric magazine, as does also the likeness of Eugene Jones, son of Mr. and Mrs. C. H. Jones of San Bernardino, in connection with a writeup of his prowess as a marksman. Eugene is the son of General Agent C. H. Jones of the San Bernardino district, formerly local P. E. agent, and Mrs. Jones, who was born in Etiwanda and lived here until after her marriage to Mr. Jones.

Stronger Than He Was at Twenty

FIFTY-FIVE years old, and still going strong!

Do you want the secret of such vitality? It isn't what you eat, or any tonic you take. It's something anyone can do—something you can start today and see results in a week! All you do is give your vital organs the right stimulant.

A famous doctor discovered the way to stimulate a sluggish system to new energy. It brings fresh vigor *to every organ.* Being a physician's prescription, it's quite harmless. Tell your druggist you want a bottle of Dr. Caldwell's syrup pepsin. Get the benefit of its fresh laxative herbs, active senna, and that pure pepsin. Get that lazy liver to work, those stagnant bowels into action. Get rid of waste matter that is slow poison so long as it is permitted to remain in the system.

The new energy men and women feel before one bottle of Dr. Caldwell's syrup pepsin has been used up is proof of how much the system needs this help.

Get a bottle of this delicious syrup and let it end that constant worry about the condition of the bowels. Spare the children those bilious days that make them miserable. Save your household from the use of cathartics which lead to chronic constipation. And guard against auto-intoxication as you grow older.

Dr. Caldwell's syrup pepsin is such a well known preparation you can get it wherever drugs are sold and it isn't expensive.

NO SLEEP, NO REST, STOMACH GAS IS CAUSE
